## PINNACLE MAN #3

Pinnacle Man holds a shining obelisk,  
drawing eyes  
to inspire hearts  
to feel goodness.

The symbolic obelisk of thoughts exists  
in every city and will never die.

Wisdom passes from axons and dendrites  
to other neurons at the speed of light  
from brain to brain.

Earth's skies and winds, dusts, and pollution  
never affect its brilliance.

It represents the rebirth of human vision  
and the growth of great skills in  
human perception and  
communication.
