Independent Auditor's Report

Board of Directors Alpha Omega Alpha Honor Medical Society

Report on Financial Statements

We have audited the accompanying financial statements of Alpha Omega Alpha Honor Medical Society, which comprise the statements of financial position as of August 31, 2021 and 2020, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Alpha Omega Alpha Honor Medical Society as of August 31, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

February 9, 2022

Notes to Financial Statements

August 31, 2021 and 2020

(1) Summary of Significant Accounting Policies

(a) Organization

Alpha Omega Alpha Honor Medical Society ($A\Omega A$) is a nonprofit honor medical society, organized in 1902 and currently has 135 self-directed chapters at medical schools in the United States and Lebanon. $A\Omega A$'s financial statements do not include chapter financial activities.

 $A\Omega A$ publishes *The Pharos*, a quarterly, multidisciplinary, peer-reviewed medical humanities journal, and sponsors thirteen national fellowships, grants, and awards that are available to all students, residents, faculty, fellows, and community and private physicians. These awards include visiting professorships; distinguished teacher awards; student research fellowships; postgraduate research fellowships; essay and poetry awards; excellence in inclusion, diversity, and equity; and recognition for $A\Omega A$ chapter administrative personnel and volunteer clinical faculty. $A\Omega A$ promotes leadership through its Medical Student Service Leadership Project grant, Fellow in Leadership, and Professionalism awards.

 $A\Omega A$'s revenue is derived primarily from membership dues, return on investments, and contributions.

(b) Basis of Accounting

The accompanying financial statements of $A\Omega A$ have been prepared on the accrual basis of accounting, and accordingly reflect all significant receivables, payables, and other liabilities.

(c) Financial Statement Presentation

 $A\Omega A$ is required to present information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions – Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of $A\Omega A$. These net assets may be used at the discretion of $A\Omega A$'s management and the board of directors.

Net assets with donor restrictions – Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of $A\Omega A$ or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

(d) Measure of Operations

The statements of activities report all changes in net assets, including changes in net assets from operating and nonoperating activities. Operating activities consist of those items attributed to $A\Omega A$'s ongoing activities and program services. Nonoperating activities are limited to resources that generate return from investments and other activities considered to be of a more unusual or nonrecurring nature.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(e) Cash and Cash Equivalents

For purposes of the statements of cash flows, A Ω A considers all highly liquid investments with an initial maturity of three months or less, and which are not held by investment managers as part of an investment portfolio, to be cash equivalents.

(f) Concentrations of Credit Risk

Financial instruments which potentially subject $A\Omega A$ to concentrations of credit risk consist of investments. Investments are made by investment consultants engaged by $A\Omega A$ and are monitored by the Investment Committee of the Board of Directors and management. Though the market value of investments is subject to fluctuations on a year-to-year basis, management believes that the investment policy is prudent for the long-term welfare of $A\Omega A$.

(g) Investments

 $A\Omega A$ reports investments at fair value. Fair value is determined as more fully described in note 1(h). $A\Omega A$'s management is responsible for the fair value measurement of investments reported in the financial statements and believes that the reported values are reasonable. Investment return consists of the $A\Omega A$'s distributive share of any interest, dividends, and capital gains and losses generated from investments. Investment gain or loss (including realized and unrealized gains and losses on investments) is included in the change in net assets in the statements of activities as increases or decreases in net assets without donor restrictions unless the income or loss is restricted by donor or law.

(h) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. Fair value should be based on the assumptions market participants would use when pricing an asset. U.S. generally accepted accounting principles establish a fair value hierarchy that prioritizes investments based on those assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets (observable inputs) and the lowest priority to an entity's assumptions (unobservable inputs). Assets are grouped in three levels based on the markets in which the assets are traded, and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1 Unadjusted quoted market prices for identical assets or liabilities in active markets as of the measurement date.
- Level 2 Inputs other than quoted market prices that are observable for the asset/liability, either directly or indirectly.
- Level 3 Unobservable inputs that cannot be corroborated by observable market data.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. These classifications (Level 1, 2 and 3) are intended to reflect the observability of inputs used in the valuation of investments and are not necessarily an indication of risk or liquidity.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(h) Fair Value Measurements, Continued

In addition, certain investments are reported using the "practical expedient" method. The practical expedient method allows net asset value per share or its equivalent to represent fair value for reporting purposes when the criteria for using this method are met. Investments valued using net asset value per share or its equivalent are not categorized within the hierarchy.

(i) Revenue Recognition

Contributions

Contributions received are recorded as net assets with donor restrictions or net assets without donor restrictions, depending on the existence or nature of any donor restrictions.

All donor-restricted support, including pledges, is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a donor restriction expires, (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from donor restrictions.

Membership Dues

Management has determined that membership dues do not represent a commensurate exchange of value between $A\Omega A$ and the member and are therefore contributions. As such, $A\Omega A$'s annual membership dues are recognized as revenue at the time the payment is received. $A\Omega A$ also offers the option of a one-time lifetime membership dues payment. Although lifetime membership dues are also contributions, $A\Omega A$ chooses to record these payments as deferred lifetime dues and amortize them over the estimated membership service period, which is based on the member's estimated age at the time of electing to pay lifetime dues. $A\Omega A$ believes this method presents the most accurate representation of the intended use of these dues payments.

Insignia and Other

Revenue is recognized for insignia and other sales at the time of the sale when the goods are delivered to the buyer.

(i) Functional Allocation of Expenses

The costs of providing program and supporting services have been summarized on a functional basis in the accompanying statements of functional expenses. $A\Omega A$ incurs expenses that directly relate to, and can be assigned to, a specific program or supporting activity. $A\Omega A$ also conducts a number of activities which benefit both program objectives as well as supporting services (i.e. management and general and solicitations activities). These costs, which are not specifically attributable to a specific program or supporting activity, are allocated by management on a consistent basis among program and supporting services benefited, based on either financial or nonfinancial data, such as estimates of time and effort incurred by personnel.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(k) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(l) Income Tax Status

 $A\Omega A$ is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. Accordingly, $A\Omega A$ qualifies for the charitable contribution deduction. Income from activities not directly related to $A\Omega A$'s tax-exempt purpose is subject to taxation as unrelated business income. There was no unrelated business income subject to tax in 2021.

Management is required to evaluate tax positions taken by A Ω A and to recognize a tax liability if A Ω A has taken an uncertain position that probably would not be sustained upon examination by taxing authorities. A Ω A believes that it has appropriate support for any tax positions taken and that none would require recognition of a liability or disclosure in the financial statements. A Ω A is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes A Ω A is no longer subject to income tax examinations for years prior to June 30, 2018.

(m) Subsequent Events

Management has evaluated subsequent events through February 9, 2022, the date the financial statements were available to be issued. No events were identified.

Notes to Financial Statements, Continued

(2) Liquidity and Availability of Financial Assets

The following represents the A Ω A's financial assets available for general expenditures within one year as of August 31:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$ 670,904	75,471
Operating investments	<u>25,798,805</u>	20,098,427
Financial assets available to meet cash		
expenditures over the next twelve months	\$ <u>26,469,709</u>	<u>22,173,898</u>

The $A\Omega A$'s financial assets available to meet cash needs for general expenditures within one year represent funding for ongoing operational requirements. General expenditures include administrative, program, and solicitation expenses incurred in the conduct of the $A\Omega A$'s ongoing activities. In the normal course of operations, $A\Omega A$ earns revenue from membership fees that are available to meet cash needs for general expenditures throughout the year. As part of its liquidity management, cash in excess of daily requirements is invested in investment funds that provide immediate liquidity.

Investments totaling \$127,201 and \$125,982 at August 31, 2021 and 2020, respectively, represent $A\Omega A$'s donor-restricted endowment funds, which are subject to an annual spending policy, and the income from which is restricted for specific purposes as described in note 6. Additionally, $A\Omega A$'s investment in a hedge fund totaling \$788,065 at August 31, 2021, is not available for general expenditures over the next twelve months as described in note 3.

(3) Investments

Investments are stated at fair value and consist of the following at August 31:

	<u>20</u>	<u>)21</u>	<u>2020</u>
Cash equivalents and short-term funds	\$ 28	3,811	548,081
Equities Exchange-traded funds Equity mutual funds	10,310 6,358),491 3,134	9,696,354 5,227,467
Fixed income Bond mutual funds U.S. Treasuries and agency securities Corporate bonds Municipal bonds	9,228	3,570 - - -	5,658,153 559,135 411,635 123,584
Diversifiers Hedge fund	788	3,065	
	\$ <u>26,714</u>	1,071	<u>22,224,409</u>

 $A\Omega A$ has adopted investment and spending policies approved by the Board of Directors consistent with the Uniform Prudent Management of Institutional Funds Act (UPMIFA) to ensure support for the long-term viability of $A\Omega A$'s programs through consistent, predictable cash flows. The return objective shall be to earn 4.5% on average over longer periods of time (+/- 10 years). $A\Omega A$ has a policy of appropriating for distribution each year 4% of the average value of the endowment assets over the last 12 quarters measured at June 30.

Notes to Financial Statements, Continued

(3) Investments, Continued

 $A\Omega A$ employs an outside investment manager to manage its equity and fixed income portfolios, and these funds are largely invested across a highly diversified group of mutual funds.

 $A\Omega A$'s net investment return consists of the following for the years ended August 31:

	<u>2021</u>	<u>2020</u>
Net realized and unrealized gains	\$ 4,090,991	1,411,787
Interest and dividends	565,819	420,644
Less investment fees	<u>(74,754</u>)	<u>(83,020</u>)
Net investment return	\$ <u>4,582,056</u>	<u>1,749,411</u>

The following table summarizes A Ω A's investments by the fair value hierarchy levels as of August 31, 2021:

		Assets			
		Measured			
	Fair Value	at NAV*	<u>Level 1</u>	Level 2	Level 3
Cash equivalents	\$ 28,811	_	28,811	_	_
Exchange-traded funds	10,310,491	_	10,310,491	_	_
Mutual funds	15,586,704	_	15,586,704	_	_
Hedge fund (a)	<u>788,065</u>	<u>788,065</u>			
Total	\$ <u>26,714,071</u>	<u>788,065</u>	25,926,006		

The following table summarizes A Ω A's investments by the fair value hierarchy levels as of August 31, 2020:

		Assets Measured			
	Fair Value	at NAV*	<u>Level 1</u>	Level 2	Level 3
Cash equivalents and					
short-term funds (b)	\$ 548,081	344,373	203,708	_	_
Exchange-traded funds	9,696,354	_	9,696,354	_	_
Mutual funds	10,885,620	_	10,885,620	_	_
U.S. Treasuries and					
agency securities	559,135	_	559,135		
_	_				
Bonds	535,219		535,219		
Total	\$ 22,224,409	344,373	21,880,036		

^{*} Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient, which is a reasonable estimate of fair value, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of financial position.

All assets have been valued using a market approach. There were no changes in the valuation techniques during the current year.

Notes to Financial Statements, Continued

(3) Investments, Continued

- (a) The fair value of the multi-strategy hedge fund was determined using NAV, or its equivalent, and was based on financial information determined and reported by the investment manager. The multi-strategy hedge fund's investment objective is capital appreciation with limited variability of returns, which is achieved by allocating capital among several pooled entities, each managed by an independent investment advisor. Because the hedge fund is a closed-end investment company, the investment is redeemable only semi-annually with 95 days' notice and a one-year hard lock. Therefore, this investment is not considered to be available for use in general operations within twelve months from August 31, 2021. AQA has no unfunded commitments to the fund as of August 31, 2021.
- (b) The fair value of the short-term fund was determined using NAV, or its equivalent, and was based on financial information determined and reported by the investment manager. The short-term fund sought to attain a high rate of current income while ensuring that the fund's risk of principal loss did not exceed that of a portfolio invested in U.S. six-month Treasury bills. During the year ended August 31, 2021, the short-term fund closed, and AΩA transferred the investment proceeds to Schwab checking accounts.

4) Fellowships, Grants, and Awards Payable

At August 31, 2021 and 2020, fellowships, grants and awards payable total \$383,150 and \$374,730, respectively, and consist of approved but unpaid second- and third-year awards for various $A\Omega A$ programs, including Student Research, Post Graduate, and Medical Student Leadership awards.

5) Paycheck Protection Program Loan

 $A\Omega A$ received two loans under the U.S. Small Business Administration's (SBA) Paycheck Protection Program (PPP) authorized under the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act). The first loan totaled \$82,516 and was received in June 2020. The second loan totaled \$129,453 and was received in February 2021. Both loans were forgiven during the year ended August 31, 2021, and $A\Omega A$ recognized \$211,969 as a contribution.

6) Endowment Funds

Net assets with donor restrictions are composed of A Ω A's endowment funds, which consist of the following as of August 31:

	<u>2021</u>	<u>2020</u>
Endowments subject to spending policy and appropriation		
Gifts restricted in perpetuity	\$ 115,325	115,325
Unexpended endowment earnings	11,876	10,657
Total net assets with donor restrictions	\$ <u>127,201</u>	125,982

Notes to Financial Statements, Continued

(6) Endowment Funds, Continued

 $A\Omega A$'s donor-restricted endowment funds restricted in perpetuity consist of the following as of August 31:

	<u>2021</u>	<u>2020</u>
Dr. David J. and Diane L. de Harter Gift Endowment Fund (de Harter Fund) Robert H. Moser Gift Endowment Fund	\$ 70,000	70,000
(Moser Fund)	<u>45,325</u>	45,325
Total donor-restricted endowment funds	\$ <u>115,325</u>	115,325

Net assets associated with these endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The de Harter Fund endowment gift agreement established \$70,000, with a match of \$30,000 by $A\Omega A$, to be invested in perpetuity. This fund supports $A\Omega A$'s Visiting Professorship program at the University of Wisconsin and is invested according to $A\Omega A$'s investment policy. Up to 4% of the average annual investment return is available for annual distributions. A Ω A has agreed to match the annual yield of the gift up to 4% of \$100,000 in the A Ω A investment pool.

The Moser Fund was established to issue a recurring Moser Writing award. The funds are invested under A Ω A's investment program described in note 3. At August 31, 2021 and 2020, net assets maintained in perpetuity related to the Moser Fund consist of original contributions plus accumulated earnings and appreciation.

 $A\Omega A$ has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, A Ω A classifies as donor-restricted endowment funds to be maintained in perpetuity (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that are not retained in perpetuity are classified as net assets with donor restrictions until those amounts are appropriated for expenditure by A Ω A management in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, A Ω A considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purpose of $A\Omega A$ and the donor-restricted endowment fund
- (3) General economic conditions(4) The possible effects of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other $\overline{A}\Omega A$ resources
- (7) The investment policies of the $A\Omega A$.

Notes to Financial Statements, Continued

(6) Endowment Funds, Continued

Following are the changes in the donor-restricted endowment net assets for 2021 and 2020:

Endowment net assets at August 31, 2019	\$ 121,748
Investment return, net	8,734
Endowment assets appropriated for expenditure	<u>(4,500</u>)
Endowment net assets at August 31, 2020	125,982
Investment return, net	5,719
Endowment assets appropriated for expenditure	(4,500)
Endowment net assets at August 31, 2021	\$ <u>127,201</u>

Return Objectives and Risk Parameters

The primary investment objective is to generate income and assets to carry out the purpose of the endowment funds while reducing, to the greatest extent possible, the possibility of loss. Consistent with prudent standards of preservation of capital and maintenance of liquidity, the goal is to earn the highest possible total rate of return by investing in socially responsible investment vehicles, consistent with the investment guidelines and social criteria of $A\Omega A$.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, A Ω A relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). To achieve its long-term return objectives within prudent risk constraints, A Ω A invests across a highly diversified group of mutual funds. A Ω A has an active investment committee that consistently reviews allocations and returns.

Spending Policy and How the Investment Objectives Relate to Spending Policy

Investment income earned on endowment assets are to be used per donor intent. Distributions from the endowment funds shall not cause the fund's net asset value to drop below the restricted amount. In establishing the spending policy, $A\Omega A$ considers the long-term expected return on its endowments. Accordingly, over the long term, $A\Omega A$ expects the current spending policy to allow its investment portfolio to grow at an average of 4.5% annually. This is consistent with $A\Omega A$'s objective to provide additional real growth through investment return.

(7) Operating Leases

 $A\Omega A$ leases office space under a non-cancelable operating lease that expires in August 2022. The future minimum lease payments at August 31, 2021 total \$81,562. Rental expense incurred for the years ended August 31, 2021 and 2020 was \$60,351 and \$77,792, respectively.

(8) Employee Retirement Plan

The employees of $A\Omega A$ participate in a defined contribution plan under Section 403(b) of the Internal Revenue Code. $A\Omega A$ is required to contribute 10% of employees' eligible compensation to the plan annually. Pension expense incurred for the years ended August 31, 2021 and 2020 was \$68,617 and \$69,289, respectively.
