

Dear Friends and Colleagues,

Following 13 years of stellar leadership under Dr. Richard Byyny, AΩA now seeks a new Executive Director to lead the organization as it advances into its “next 120 years.” We would particularly appreciate your recommendations of worthy candidates.

The Executive Director’s role is based on, and designed to uphold AΩA’s mission, values, and commitment to diversity, equity, and inclusion (<https://www.alphaomegaalpha.org>).

AΩA’s Board of Directors seeks an Executive Director who values the rich tradition of the organization and understands its importance and relevance to contemporary and evolving medical practice, the profession of medicine, medical education, research and scholarship, and in the eyes of the public.

A detailed Position and Candidate Specification can be found **here**. The Search Committee invites inquiries, applications, and nominations. All correspondence should be submitted through the dedicated search mailbox ED@alphaomegaalpha.org by **June 5**. All communication will be confidential. Interested individuals are invited to submit a cover letter and CV. AΩA is an equal-opportunity employer, committed to a diverse staff and an inclusive and supportive work environment for all employees. Candidates with backgrounds or from groups underrepresented in medicine are especially encouraged to apply.

Please consider this opportunity yourself, or forward it to others whom you think would be good candidates. We welcome both self-nominations and your brief, direct suggestions of other candidates.

Please feel free to call the AΩA national office at 720-859-4149 should you have any questions.

Thank you for your interest and support.

Lynn Cleary, MD
Chair, Search Committee
